Data Relating to September 1, 2010

Issued September 10, 2010

Summer Crops Forecast

OKLAHOMA:

Production of **corn for grain** is now forecast at 43.2 million bushels, unchanged from last month but 29 percent above 2009. An average yield of 135.0 bushels is expected from 320,000 harvested acres.

Production of **all cotton** is now forecast at 450,000 bales, up 32 percent from the August 1 forecast and 41 percent above 2009. An average yield of 815 pounds is expected from 265,000 harvested acres.

Production of **grain sorghum** is now forecast at 11.7 million bushels, up 2 percent from last month but 5 percent below 2009. An average yield of 53 bushels is expected from 220,000 harvested acres.

Peanut production is now forecast at 64.0 million pounds, up 22 percent from a month ago and 49 percent above 2009. An average yield of 3,200 pounds is expected from 20,000 harvested acres.

Soybean production is now forecast at 10.12 million bushels, down 23 percent from August 1 and 16 percent below last year. An average yield 23 bushels is expected from 440,000 harvested acres.

UNITED STATES:

Corn production is forecast at 13.2 billion bushels, down 2 percent from last month, but up from the previous record of 13.1 billion bushels set in 2009. Yields are expected to average 162.5 bushels per acre, down 2.5 bushels from the previous month and 2.2 bushels below last year's record of 164.7 bushels.

All **cotton** production is forecast at 18.8 million bales, up 2 percent from last month and up 55 percent from last year's 12.2 million bales. Yield is expected to average 839 pounds per harvested acre, up 62 pounds from last year.

Production of **grain sorghum** is forecast at 376 million bushels, down 2 percent from both last month and last year. Yield is expected to average 72.7 bushels per acre from 5.18 million harvested acres.

Peanut production is forecast at 4.09 billion pounds, up 1 percent from the August forecast and up 11 percent from last year. Yields are expected to average 3,242 pounds per acre from 1.29 million harvested acres.

Soybean production is forecast at a record high 3.48 billion bushels, up 1 percent from August and 4 percent above last year. Based on September 1 conditions, yields are expected to average a record high 44.7 bushels per acre, up 0.7 bushel from both last month and last year.
